

EXITING THE BACK GATE

The Back Gate on the south side of Kingston Plantation is used by large commercial vehicles to enter and exit the property.

Emergency Vehicles (fire trucks, ambulances, and police) use the Back Gate, as well to enter and exit the property. Delaying Emergency Vehicles from entering Kingston Plantation can have life-threatening consequences. Waiting for a personal vehicle to back-up so an Emergency Vehicle can enter **MUST** be avoided.

Therefore, personal vehicles and regular commercial trucks and vans **SHALL NOT** exit Kingston Plantation through the Back Gate. Please exit through the Front Entrance.

Do the Right Thing!

You MUST EXIT using the Front Entrance !!

Someone's life may depend on it!!!
